The Most Desirable Security in the Market!

EUROPEAN & NORTH AMERICAN RAILWAY BONDS.

The European & North American Railway is completed from Bangor to Winn, Maine,—a distance of 56 miles, and on this portion, from local traffic alone, is doing a large, remunerative and continually increasing business. To complete the through line from Bangor to Saint John, New Brunswick, there only remains to be finished the portion from Winn to the boundary line of the State of Maine at Vanceboro', a distance of fifty-eight miles, (the line thence to St. John being already completed and trains running regularly thereon.)

On this connecting link of Road the work is being pushed forward towards completion with all possible dispatch; the road-bed, and the greater part of the masonry, culverts, &c., being now nearly done. Hundreds of men are at work, both from Winn EASTWARD, and from Vanceboro' WESTWARD, completing the Road and laying the track, and on April 1st, six miles were finished and cars running thereon. The remainder will undoubtedly be finished in September next, and the Road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES, (New Brunswick & Nova Scotia.)

The population of the Maritime Provinces is about ONE MILLION, and the land travel, freight, mails, &c., between them and the United States, will all pass over this Trunk Line. In order to aid in the completion of the European & North American Railway from Winn to Vanceboro', and to equip the Road in the most thorough and first class manner (as required by its present large business as well as by the heavy increase in passengers and freight consequent upon its completion) the Company has issued its Bonds to the amount of TWO MILLIONS OF DOLLARS ($2,000,000) secured by a

FIRST AND ONLY MORTGAGE

On its Entire Road from Winn to Vanceboro, a distance of Fifty-eight miles, and in addition thereto,

A FIRST AND ONLY MORTGAGE OF 800,000 ACRES OF LAND!

These lands being the same granted by the State of Maine to this Company to aid the construction of the Road—and said lands equal in extent some FORTY (40) TOWNSHIPS! They are situated along the Penobscot and St. John rivers, and branches tributary thereto, and are heavily timbered and valuable Large tracts, especially in the fertile and famous Aroostook Valley, are valuable for farming lands, as well as for their timber. It is believed that the proceeds of sales of these lands and the lumber therefrom will alone be ample to pay the entire amount of these Bonds at maturity.

In addition to the above named security, which is ample,—these Bonds are also secured by a SECOND Mortgage of the entire line of the Road and Equipments from BANGOR to WINN, a distance of fifty-six (56) miles. (This part of the Road cost some $2,300,000, and the City of Bangor has a mortgage thereon for one million dollars to secure its Bonds for said amount issued to the Company.)

The TRUSTEES under this $2,000,000 Mortgage are HON. HANNIBAL HAMLIN, of Bangor, Me., and J. EDGAR THOMSON, ESQ., of Philadelphia, Pa.

The Bonds are dated March 1st, 1869, payable thirty years from date, and are issued in denominations of **$1,000 EACH.**

WITH INTEREST AT SIX PER CENT PER ANNUM,

Both Principal and Interest Payable in GOLD COIN, free of U. S. Government Tax.

Coupons payable in New York March 1st and September 1st of each year.

As an additional precaution for safe keeping, purchasers can have the Bonds Registered by the Treasurer of the Company, if desired.

Bonds issued with Interest Coupons (£5. each) payable in London, England, if preferred.

SINKING FUND. As a still further security for the payment of these Bonds, a SINKING FUND has been established. All proceeds of sales of the lands, as well as of timber and other products therefrom, are by the Trustees to be invested (FIRST) in these Bonds if they can be bought at par or less, and (SECOND) in United States, State, or Municipal securities, in case these Bonds cannot be obtained at par. And on July 1st, 1870 and annually thereafter until the Bonds become due, the European & North American Railway Company are, by the conditions of the Mortgage, bound to pay to the Trustees, to be added to the Sinking Fund, a sum of money equal to one per cent. of the amount of Bonds outstanding. Such amounts, together with all interest received on securities belonging to the Sinking Fund, are to be promptly invested for the benefit of said Sinking Fund, as stated above.

These Bonds are receivable by the Trustees AT PAR AND ACCRUED INTEREST, in payment for any of the lands at their latest appraised value.

The Bonds are for sale at the low price of

NINETY AND ACCRUED INTEREST, IN CURRENCY.

Government, State and City Bonds, and all marketable securities received at highest market price in exchange for above. Money or securities to be exchanged for these Bonds can be sent by express, and these Bonds will be forwarded in return by express, free of expense to the purchaser. Pamphlets, giving full account of the business, connections, &c. of the Road,—and maps showing location of the Road and of its lands, sent by mail on application to

ELIAS MERRILL,

to whom all remittances for, and correspondence in regard to these securities, should be addressed.

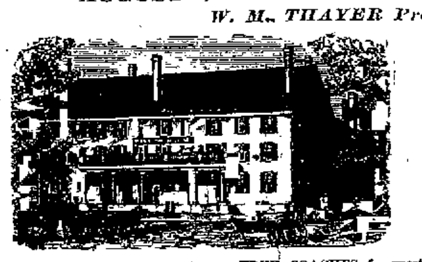

☞ To make a complete and unbroken line of Railway from Halifax, Nova Scotia, to Portland, Boston, New York, San Francisco, and all the chief cities of the United States, there will then only remain to be built some sixty-five miles, between Dorchester, New Brunswick, and Truro, Nova Scotia,—and this, (a part of the Intercolonial Railway) is already in process of construction and will be completed in 1872 (It is heavily subsidized by the Canadian Government.) The distance by railroad from Halifax to Bangor will be 458 miles, to Boston 700 miles and to New York 940 miles. The distance from Halifax to New York by water is 700 miles, and 70 hours is generally required to make the passage by steamer. On completion of the R. R. through to Halifax, the time occupied in the journey will be thirty hours by express trains, thus enabling passengers and mails to go to and from Europe VIA Halifax in FORTY HOURS less time than is now required. This great saving of time, together with the consequent shortening of the Ocean passage, will add greatly to the business of the E. & N. A. RAILWAY.

Bangor, April 14, 1871.

THE

CENTRAL RAILROAD,

OF IOWA,

have now built and equipped, in first class manner, about

180 MILES OF RAILROAD,

which will complete their entire line, with the exception of laying the track on twenty-five miles, which is already graded. They will thus open

THE FIRST THROUGH LINE ACROSS THE STATE

from north to south, and, by making a slight detour at one point, they will give

DIRECT COMMUNICATION BETWEEN ST. LOUIS AND ST. PAUL.

This line of Railroad will have very special advantages for both local and through business, besides such superior railroad connections as will secure to it a large portion of the carrying trade of the great Northwest. The

First Mortgage

7 Per Cent. Gold Bonds

which are issued upon this road, are limited in amount to $16,000 per mile (while many roads issue from $20,000 to $40,000), and are offered at 90 and accrued interest, in currency. About two millions and a half of these bonds have already been disposed of, leaving but a small balance unsold, which are being rapidly taken.

The most experienced financiers agree that **First Mortgage Bonds**, to a limited amount, **upon a finished railroad**, which is well located, for business, are one of the very safest forms of investment.

Parties desiring to secure a first-class security, based upon a railroad practically done, and in the hands of leading capitalists who have a large pecuniary and business interest in its success, will do well to apply at the office of the Company, or any of its advertised agents, for a pamphlet and map, showing the characteristics of the enterprise.

Holders of Government Bonds may exchange them for Central Iowas at a large present profit, beside a handsome increase of interest for a long term of years. Parties making such exchange will receive for each $1,000 Bond a $1,000 Central Iowa Bond, and the following difference in cash (less the accrued interest in currency upon the latter bond), and in annual interest, this calculation being based upon market prices of March 1st, 1871.

They are practising rhetoric out West. A Chicago paper, noticing a "back down" on the part of one of its contemporaries upon some local issue, gets at the point in this way: "It was a reduction, at a single step, from the portentous dignity of a seeming pestilence to the simple nastiness of a confessed nuisance."

The national census returns show that Florida has had the largest percentage of increase in population of any State in the Union, except Missouri, the increase in Florida being fifty per cent. and in Missouri fifty-five per cent. In the increase in the establishment of productive industries Florida stands at the head of the list, her increase being 262 per cent., while that of Missouri is only 242 per cent.

THE STATE REFORM SCHOOL.

A correspondent of the Somerset Reporter gives the following account of the condition and management of this important institution:

By invitation I visited the Reform School with the Governor and Executive Committee. After hearing the various complaints in regard to the general condition of the affairs of the institution and especially as to the health and treatment of the inmates, I felt no little anxiety in regard to the matter, and so far as I had opportunity did notice quite carefully the general appearance, both in and about the institution, and especially the condition of the inmates, their clothing, food, etc.

The general appearance about the premises is tidy and indicates thrift. The farm tools and carriages were in fair condition and properly housed and stored. The stock looked well, being in very fair condition and no signs of a waste of feed, and nothing of that untidy condition of affairs often seen about the premises of even very good farmers. The condition of the house and shops was very desirable. The school room was first visited where the boys, with the exception of two who were sick, had assembled. The exercises in the school were quite as good as under the circumstances could be reasonably expected, and the discipline, although good, was not apparently such as is enforced under the fear of punishment. After the exercises in the school room and remarks by the Governor, which were evidently enjoyed both by the students and visitors, the school had a recess, and no sooner had they reached the door than they commenced their sport in real earnest. I was unable to detect anything of the feeble, stunted, shivering condition of any of the boys, the details of which moved the House of Representatives to tears.

The work shops were in order next, where the boys were at work with a will, evidently ambitious to do their best. The Governor and Mrs. Perham, as did the other visitors, conversed freely with both the laborers and overseers. The boys all admitted that the labor assigned them could be performed within less than the time which they were required to labor. The regulations require six hours of labor and four of study. They are required to retire at half-past eight in the evening and rise at half past five, except from Nov. 1st to March 31st, when they are allowed to lie until half past six. The food cooked and on hand was good as to material and well cooked, and the food in the oven for the next day looked as well as one will often see. The boys were decidedly healthy and happy if one can judge from appearances. The relations existing between the officers and inmates of the institutions and between the teachers and pupils were of a most friendly character. All with whom I conversed stated most freely that they were well cared for and kindly treated by all connected with the institution, and several expressed themselves as very much attached to Mr. Hucthinson, the Superintendent, and Mrs. Hutchinson who is evidently very much in earnest about the welfare of the boys and success of the institution.

The building has been very poorly warmed, the apparatus for that purpose being in no way suitable. This difficulty will be obviated by the introduction of steam in accordance with the Resolve of the Legislature. The necessity of more efficient means to extinguish fire and more ample play grounds must be apparent to any one. These matters have become a subject of consideration; the Board of Trustees are exceedingly anxious to provide for both these urgent demands at the earliest moment when they have the necessary funds. The gentlemen who compose the board of trustees are very much interested in the success of the school and are doing every thing that efficient and experienced men can do with the means they have. The Superintendent is a very gentlemanly, and I should judge, efficient man for the place.

If the Governor looks as carefully after the interest of the State generally, as he and his Committee did after the condition of this institution, he will have but little rest for the year to come.

At the time of the visit 172 were in attendance. Only two were sick and they were evidently well cared for and convalescent.

NEW PUBLICATIONS.

HESPERIA—a Poem. by Cora L. V. Tappan, dedicated to the "Future Republic." The heroine of the poem "Hesperia" is the daughter of "Astrea" the Genius of Liberty and Justice, and is taken in charge by "Llamia" the serpent of Policy, who seeks to unite her in marriage to her foul son "Slavery," but failing therein provokes a war, is overcome, and the fair child of Liberty is wedded to "Erotian" the Genius of Nature, and the two now rule with undivided sway over the most lovely "Empire of the Earth." Published by H. O. Houghton & Co., Cambridge, Mass. For sale by D. Bugbee & Co.

Charles H. Spencer, Boston, sends us THE FIGHT AT DAME EUROPA'S SCHOOL; showing how the German boy thrashed the French boy, and how the English boy looked on. A comical rendering of the causes and effects of the late war, under cover of an allegory, wherein the crowned heads taking part in that struggle are irreverently represented as a brace of belligerent school-boys fighting for the possession of a disputed garden plot, while England as "John" looks coolly on, merely contenting himself with providing the "stones" for weapons, and then kindly sponging the bloody noses on both sides. For sale by D. Bugbee & Co.

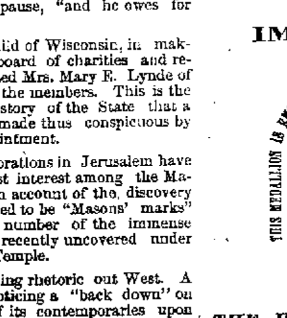

A LOST LIFE, by Emily H. Moore. A well written story, and a brave, honest protest against the social wrongs of woman, with here and there touches of the tenderest pathos that bring tears to the reader's eyes, and yet amid all this attractiveness there is a flippant undertone, a vein of irreligiousness underlying the beautiful imagery that would make us pause before putting it into the hands of our daughters. G. W. Carleton, New York Publisher. For sale by D. Bugbee & Co.

WHAT I KNOW OF FARMING, is a series of brief and plain expositions of practical agriculture, by Horace Greeley, and dedicated by him to "The Man of our Age" who shall make the best and cheapest "steam plough." It is a sensible, practical history of the successes and failures of the well known editor and philanthropist as a farmer, and is sure to find favor with the agriculturists of our country. THE ADJOURNMENT OF CONGRESS.

It is difficult to extract from the telegraphic reports which have thus far reached us, any accurate information as to the precise terms and provisions of the Ku Klux bill as finally passed by both Houses of Congress On Wednesday evening the Senate assembled at half past eight, and after an unsuccessful attempt by Messrs. Robertson and Trumbull to call up the Amnesty bill, Mr Cole of California was permitted to talk about San Domingo, and at ten o'clock Mr Edmunds presented the report of the Ku Klux Conference Committee The modification of Senator Sherman's amendment called forth an energetic speech from that member in support of his own proposition, and the debate was continued by Messrs Sherman, Edmunds, Thurman Casserly and others till past midnight, when a vote was reached at 1 1/2 a. m, and the bill passed by ayes 13 nays a strict party vote, unless the action of Robertson of S C, and Hill of Georgia may be deemed exceptions The Conference Report on the Deficiency bill having been adopted early in the day, a resolution for final adjournment on Thursday was passed and the Senate adjourned to await the action of the House

The House having passed the Deficiency bill on Wednesday on Thursday discussed the Conference Report on the Ku Klux bill and finally passed it without further amendment by a vote of 93 to 74 divided strictly on party lines Both bills then went to the President who was in attendance at the Capitol—and immediately received the Executive signature The Ku Klux bill which has become a law is the original bill introduced by Mr Shellabarger modified and amended in several important particulars From the imperfect reports at hand the following would seem to be the principal changes The authority granted the President to suspend the writ of "habeas corpus" is limited to the end of the next session of Congress instead of to June 1872, as originally provided The iron clad test oath for jurors is not definitely abolished as provided in the House amendment, but the right of peremptory challenge of grand or petit jurors on account of having aided the rebellion is left to the discretion of the District Attorneys and the ruling of the Courts

The Sherman amendment which provided for bringing actions and assessing damages against counties and parishes in their corporate capacity when outrages were tolerated or punished within their limits, has given place to a substitute intended to avoid the difficulty of dealing with corporations and to make individuals responsible The only explanation which we have had of its purport is the following report of Mr Edmund's remarks in the Senate "The effect of the substitute was to make the whole body of inhabitants of the vicinity who have knowledge that a conspiracy is formed to destroy property or to injure the person of any peaceable inhabitant and who have power to assist in suppressing it responsible for their neglect or refusal so to do In other words it dealt with the citizen Under the Constitution every citizen having knowledge of an organization to commit the outrages mentioned was made a police officer and it was made his bounden duty as a citizen of the United States to render affirmative assistance in protecting property against unlawful aggression

The bill as amended passed both Houses of Congress by the unanimous support of the Republican members and we hope that its provisions will prove to be ample and effective We have no fear that the President will abuse the powers with which he is invested and anticipate that the knowledge that he possesses it will prove of salutary effect upon the lawless elements of the South There will be some disappointment at the failure of the Senate to pass the amnesty bill before adjournment but there can be no just complaint if Senators are disposed to move cautiously in making concessions to those who are fostering such deadly animosities towards all loyal people and there will be an opportunity during the recess for the Southern people to demonstrate the expediency and justice of further efforts at conciliation

Both Houses adjourned at 2 p m on Thursday ending the first session of the 42d Congress and it is expected that the Senate will be convened in Executive Session on the 10th of May to act on the Conventions submitted by the Joint High Commission

The announcement by the Democrat this week of the absence of its editor was hardly necessary, as the columns plainly indicate that the 'devil' has climbed into the editorial chair to try his hand at the quill The ambitious interloper has risked blowing up the rickety concern by letting off the whole battery of rusty rebel guns at our devoted head Failing in ammunition he has crammed himself and the office cat down the bore of one of his rifles and shot himself at us, point blank range In this fashion

Such dullness couldn't *couldn't* conceive why a cat with its claws cut off *couldn't* climb a tree or a *jackass* with a thirty pound weight attached to his tail *couldn't* bray "

Since the leading Boston Democratic daily has failed to stop that bray by stepping its whole weight on the creature's tail, we think our skepticism is amply warranted, although this one may claim to be the exception which proves his own asinine rule.

The questions involved in the vote soon to be taken upon the railroad loan bills are of the highest importance to our city and thus of interest to every citizen, and we therefore open our columns for a free expression of views, that all sides may have a fair hearing The communication in another column has been published by request, in pursuance of this purpose, and our readers will please bear in mind that we do not assume responsibility for any arguments or opinions except those which are presented editorially

A long telegraphic report reached us late last evening, recounting one of the most disgraceful scenes ever witnessed in the House of Representatives, Messrs Farnsworth and Butler abusing each other in the most violent and indecent manner, and subsequently Beck of Kentucky having exceeded the vulgarity of either in an assault upon General Butler The Speaker seems to have had hard work to preserve even a semblance of order, while members appeared to enjoy the shameful proceedings most heartily

The Portland Advertiser hints at inconsistency in our publishing an account of the Blaine—Butler controversy after censuring it for "undertaking to compile political history from floating newspaper scandal." The Advertiser having given circulation to the scandal, we refuted it by publishing the truth.

We have received from Hon. Warren Johnson, Superintendent of Schools, a copy of his circular "Appeal to the Educators and School Officers of the State of Maine," to whose valuable suggestions we have incidentally referred.

Jay Gould has been served with a fourth subpoena to appear on Thursday before Kenneth G. White, Master in Equity in the proceedings instituted by the English stockholders of the Erie Railway Company against James Fisk, Jr., and himself.

STREET TALK.

AS HEARD BY SOL ROUNDS.

JONES—Well Brown I spose you are going for the Piscataquis and Winterport Railroad Loan Bills next Thursday?

BROWN—Rather guess not. I would like a Railroad to Winterport if only to give us an opening to salt water in the winter, but I can't go for Piscataquis again anyhow

JONES—Pooh! Winterport's a "private scheme," Sanford can build that road himself any time, but my dear man ain't you aware that when the Piscataquis is put through to Moosehead Lake that it will be the best paying road by all odds in New England, besides heading off the Maine Central, that moth which is continually eating into the vitals of Bangor?

BROWN—I can't see it in that light, and think you are giving yourself "great uneasiness," for that "Maine Central consolidated concern" can any time they have mind to, build twenty miles of road toward Moosehead or anywhere else, to the Piscataquis, one, and much quicker too, besides the idea of giving the Piscataquis road two or three hundred thousand dollars more out of the City Treasury when they have already had a million, don't appear to me (as long as we are getting rid of money so fast) to be hardly a fair distribution of the public funds

JONES—Very true Brown, but is'nt it better to owe a big pile of money rather than a little one, for you know that any corporation now a-days, unless it is head and ears in debt like Bangor, is'nt really considered A No 1

BROWN—Jones, your argufying is too much on the 'Heathen Chinee' order for me, and as I have nary a bower in my sleeve, no timber lands, slate quarries or saw mills, and am not altogether posted "in ways that are dark and tricks that are vain," I reckon next Thursday I'll harness up, take my four boys and some of the neighbors round our way, and come down and vote agin both those loan bills, for I notice that these corporations that are so much in debt as you talk about don't forget every little while, to tuck on to a poor fellows taxes, although we lately were told at "Head Quarters" that taxation was soon to be lowered by adding on to the 'valuation,' now Jones as true as I stand here I calker late that sort of figuring won't stand

JONES—Good day Brown

BROWN—Good bye Jones

THE MINING TROUBLES Judge William Elwell, umpire in the mining difficulties, on Wednesday submitted a report to the Board of Arbitration in session at Mauch Chunk, Pa in which he declares the following propositions The right of the owner, lessee or operator of a colliery to the entire and exclusive control and management of his works is guaranteed and unquestionable, violence, threats of coercion, by any person or association, to prevent miners from working for whom they please and at what wages they please, or operators from hiring whom they please at what wages they please, are unlawful, men have an undoubted right to refuse to work except upon satisfactory terms, but not to make outlaws or delinquents of non members of the miners association, an agreement by a body of men not to work because their employer discharges or refuses to employ a particular person, is contrary to the spirit of the law, and a proper subject for local arbitration, miners contracts for labor should be held as sacred as any other contracts, and interference with them is not to be tolerated, the operators ought not to combine against the members of the Miners and Laborers' Benevolent Association, and a refusal to employ a person because of such a connection would give ground for censure and refusal to other members for work It is impossible to lay down any rule in regard to the right claimed by miners to cease work in a body when they see a cause, but immediate steps are recommended for the adjustment of difficulties which may arise in the future On the reception of this report the Board of Arbitration adjourned to meet at the call of the President or Vice President, and the representatives on each side are to go back for authority to act upon the points brought up at this meeting

The London Shipping Gazette editorially expresses a belief that counter claims for the seizure of British vessels will be considered by the Joint High Commission at Washington along with claims for property destroyed by the Alabama and quotes from the works of Montague Bernard and President Woolsey of Yale College, and former treaties and commissions for precedents

FASHION OF SAUSAGES? One of President Bergh's officers found over fifty cats and kittens in the cellars of the Metropolitan Hotel in New York, on Wednesday They were all collected, fed and given to persons promising to care for them The colored man at the hotel stated that the cats had not been fed since the Sheriff took possession of the premise.

FISK AND GOULD RAISING FUNDS The announcement in the Board of Brokers that the Erie Directors had increased their common stock $35,000,000 by exchanging that amount for convertible bonds of the Company created great excitement in Wall street, Wednesday The rule of the stock exchange requiring thirty days notice of the issue of additional bonds or stock having been violated in the transaction, the Brokers' Committee met to consider the question of throwing the Erie stock out of the list called at the Board, but no decision was reached The Erie managers claim a legal right to issue convertible bonds without limitation

POLITICAL AND PERSONAL.

A Board of Presbyters for the trial of Rev Charles E Cheney, with Dr Clinton Locke of Chicago as President, has been appointed and the trial will begin May 3d

The New York Assembly has rejected a resolution to amend the constitution so as to fund the canal debt and make the canals free

Senator Morton denies that he is to succeed Secretary Boutwell, and probably the other part of the rumor, that Mr Boutwell is to go as Minister to Austria, is quite as unfounded

In spite of the late difficulties between Messrs. Butler and Blaine, the former went to the Speaker and asked to be put on the Conference Committee on the Ku-Klux bill, but his modest request was not granted

Fisk Jr denies the rumor that the relations of David Dudley Field and the Erie Railway Co have been dissolved, declaring that Mr Field is now senior counsel for the Erie Company and will be as long as he lives.

In the Deficiency bill as finally passed by both branches of Congress, the Sutro Tunnel and the Washington park items are omitted The item about Pennsylvania Avenue is amended by the substitution of $12,000 for repairs, the appropriation for the Charleston Sisters of Charity is reduced from $20,000 to $12,000, and the item about the re-issue of National Bank notes is struck out altogether.

The funeral services of the late Col. John Dickinson, recently murdered at Marianna, Florida, were attended at Benson, Vt., his native town, on Wednesday, by a large concourse of people. Rev. H. M. Holmes of Benson delivered the funeral discourse, and Rev. Wm. Smart of Albany, an eulogy on the deceased. At the conclusion of the services a public meeting of citizens was held, over which State Senator R. C. Abell presided, and addresses were made by Hon. John W. Stewart, Col. Henry W. Porter, U. S. Colburn of New York, and W. C. Dunton of Rutland and a series of appropriate resolutions were adopted.

CONSUMPTION

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away for whose death there was no other reason than the neglect of known and indisputably proven means of cure Those near and dear to family and friends are sleeping the dreamless slumber into which had they calmly adopted

DR JOSEPH H SCHENCK'S SIMPLE TREATMENT

and availed themselves of his wonderfully efficacious medicines they would not have fallen

Dr Schenck has in his own case proven that wherever sufficient vitality remains that vitality by his medicines and his directions for their use is quickened into healthful life

In this statement there is nothing presumptuous To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works The theory of the cure by Dr Schenck's medicines is as simple as it is unfailing Its philosophy requires no argument It is self assuring, self convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver With this condition the bronchial tubes sympathize with the stomach They respond to the morbific action of the liver Here then comes the culminating result and the setting in with all its distressing symptoms of

CONSUMPTION

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum They possess all the blood-searching, alterative properties of calomel but unlike calomel, they

"LEAVE NO STING BEHIND"

The work of cure is now beginning The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected The liver like a clock, is wound up It arouses from its torpidity The stomach acts responsively and the patient begins to feel that he is getting at last

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic in conjunction with the Pills permeates and assimilates with the food Chylification is now progressing, without its previous tortures Digestion becomes painless and the cure is seen to be at hand There is no more flatulence no exacerbation of the stomach An appetite sets in

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure It enters at once upon its work Nature cannot be cheated It collects and ripens the impaired and diseased portions of the lungs In the form of gatherings it prepares them for expectoration and lo in a very short time the malady is vanquished the rotten throne that it occupied is renovated and made new and the patient, in all the dignity of regained vigor steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is the patients must stay in a warm room until they get well, it is almost impossible to prevent taking cold when the lungs are diseased but it must be prevented or a cure cannot be effected Fresh air and riding out, especially in this section of the country in the fall and winter season are all wrong Physicians who recommend that course lose their patients if their lungs are badly diseased, and yet because they are in the house they must not sit down quiet, they must walk about the room as much and as fast as the strength will bear to get up a good circulation of blood The patients must keep in good spirits—be determined to get well This has a great deal to do with the appetite, and is the great point to gain

To despair of cure after such evidence of its possibility in the worst cases and moral certainty in all others is sinful Dr Schenck's personal statement to the Faculty of his own cure was in these modest words

"Many years ago I was in the last stages of consumption confined to my bed, and at one time my physicians thought that I could not live a week, then like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me It seemed to me that I could feel them penetrate my whole system They soon ripened the matter in my lungs and I would spit up more than a pint of offensive yellow matter every morning for a long time

As soon as that began to subside my cough, fever, pains and night sweats all began to leave me and my appetite become so great that it was with difficulty that I could keep from eating too much I soon gained my strength and have grown in flesh ever since

"I was weighed shortly after my recovery" added the Doctor, "then looking like a mere skeleton my weight was only ninety-seven pounds my present weight is two hundred and twenty five (225) pounds, and for years I have enjoyed uninterrupted health"

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son Dr J H Schenck, Jr., still continue to see patients at their office No 15 North Sixth street, Philadelphia, every Saturday from 9 A M to 3 P M Those who wish a thorough examination with the Respirometer will be charged $5 The Respirometer declares the exact condition of the lungs and patients can readily learn whether they are curable or not

The directions for taking the medicines are adapted to the intelligence even of a child Follow these directions and kind Nature will do the rest excepting that in some cases the Mandrake Pills are to be taken in increased doses, the three medicines need no other accompaniments than the ample instructions that accompany them First, create appetite Of returning health hunger is the most welcome symptom When it comes, as it will come, let the despairing at once be of good cheer Good blood at once follows, the cough loosens the night sweat is abated In a short time both of the morbid symptoms are gone forever

Dr Schenck's medicines are constantly kept in tens of thousands of families As a laxative or purgative, the Mandrake Pills are a standard preparation while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, $1.50 a bottle, or $7.50 a half dozen Mandrake Pills, 25 cents a box For sale by all druggists and dealers

Soldiers of the War of 1812,

ATTENTION!

Congress has passed a law giving a Pension of $8 per month to the officers, soldiers and Seamen of the war of 1812, who served sixty days or over, and to the widows of such as have died, and who were married previous to 1815, thus doing justice to this brave and meritorious band of patriots I have all the rolls and records of this service, and they are not to be found at any other place in this State, to my knowledge.

I will give every soldier the benefit of these records to establish his claim to a pension, and I will assist him in the prompt and speedy prosecution of his claim. If the soldiers' discharge is lost, these records are invaluable.

The fee is fixed by law at $10, no charge made unless a pension is obtained.

Application can be made in person at my office in Bangor, or by letter giving name of Company, officers, date and length of service, &c.

IMPROVEMENT

IN

FISH NET SUPPORTER,

PATENTED, APRIL, 1871

Patented by BENJ. RYDER Jr

SOUTH ORRINGTON, MAINE

I claim the principle or new way of operating a net It consists in attaching the net to a frame susceptible of horizontal vibration on a fixed pivot which it is loosely attached by a chain or rope in which frame it is also so adjusted in its specific gravity, as to float when the tide is slack and sink when the tide runs. When the current changes the entire apparatus rotates in a semi-circle. The net is worked on the frame by halyards and cross lines on buoys, and is tended in boats, &c.

The device has been worked, and proved to be good. Reference can be had, if wanted, and further particulars can be obtained by addressing BENJ. RYDER, Jr.

Those wishing to use the same in East River and other places, can send in their proposals.

A Proclamation by the President

By the President of the United States of America

A PROCLAMATION

Whereas Objects of interest to the United States require that the Senate should be convened at 12 o'clock on Wednesday the 10th day of May next to receive and act upon such communication as may be made to it on the part of the Executive, now, therefore,

I Ulysses S Grant, President of the United States, have considered it to be my duty to issue this, my proclamation declaring that an extraordinary occasion requires the Senate of the United States to convene for the transaction of business at the capitol in the city of Washington, on Wednesday, the 10th day of May next, at 12 o'clock on that day, of which all who shall at that time be entitled to act as members of that body are hereby required to take notice.

Given under my hand and the seal of the United States at Washington the 20th day of April in the year of Our Lord, one thousand eight hundred and seventy-one, and of the Independence of the United States of America, the ninety-fifth.

(Signed) U. S. GRANT.

HAMILTON FISH, Secretary of State.

WASHINGTON, April 20.

NEW YORK ITEMS

NEW YORK, April 20.

Jay Gould appeared to-day as a witness in the investigation into the disposal of the Erie stock owned in England, and in answer to the first question, whether he had produced the books of the books of the Company called for in Master White's order, and whether he intended to obey the summons, said he had searched all the books called for in the order, but could find nothing bearing on the case. Commissioner White and counsel Southmayd said that was no answer and each repeated the question, but with the same result. Mr. Southmayd then inquired as to the existence of the books in detail and elicited the information that Mr Gould did not know whether the company had a stock ledger or stock transfer books. He presumed that there must be such books in existence, but had never seen them to his knowledge.—If books of the company were called for by order of the Court, he did not know who would have the power to remove them He could not tell without a careful examination of the articles of the association This was a new question The Erie Company had never had any litigation where it was necessary to exercise that power

RAILROAD MATTERS

ST LOUIS, Mo, April 20

President Hayes of Boston, and several directors of the Atlantic & Pacific Railroad, arrived here yesterday accompanied by a number of ladies They will leave Saturday for an excursion over their road, and will extend their trip into Indian Territory, returning by way of Baxter's Spring Kansas, to Kansas City, and thence to St Louis by Missouri and Pacific Railroad

Several prominent railroad men connected with the Pennsylvania Central road, and its western connections are also here on a tour of inspection, and will leave for the East to day

FORTY-SECOND CONGRESS

FIRST SESSION.

WASHINGTON, April 20

SENATE

The Conference Reports on the Ku Klux and Deficiency bills having been adopted, upon notification of their passage through the House, Messrs Conkling of N Y and Davis of Ky, were appointed to wait on the President and inform him that unless he had some further communication to make Congress was now ready to adjourn

On motion of Mr Scott all bills on the table, petitions &c were ordered to be referred to their appropriate committees

At 12 20 the Senate went into Executive session

At 2 o clock the doors were re-opened when the committee to wait on the President reported that he had no further communication to make The President *pro tem*, Anthony, then declared the Senate of the 42d Congress adjourned *sine die*

HOUSE

The House met at half past ten o clock and received a message from the Senate announcing its agreement to the Conference report on the Ku Klux bill and the passage of the concurrent resolution for final adjournment at 2 o clock to-day

The House proceeded to consider the Conference report on the Ku Klux bill

Mr Poland of Vt., who presented the report, proceeded to explain and advocate it.

Mr Cox and Mr Scofield declared the substitute for Sherman's amendment did not mean anything and was not designed to

Mr Shellabarger said the assertion and insinuation were equally unjust He thought that there was much virtue in it, and that it would be a beneficent and restraining element in the bill

Mr Whitthorne, a minority member of the Com objected especially to the juror's test oath clause, and appealed to the House not to further irritate and provoke the people of the South

Mr Beck followed in opposition to the bill and Mr Butler defended the test oath clause but objected to the substitute for Sherman's amendment He ridiculed the constitutional objections yesterday to Mr Sherman's amendment and said he had known men who had mistaken dyspepsia for conscience, and doubts and qualms for constitutional law He denounced the substitute as utterly futile and absurd

Mr Garfield replied to Mr Beck as to the test oath clause, which was entirely a remedial measure, and was very severe in reply to Mr Butler saying now that the whole Republican party is in line on this report, the gentleman acts in character when he comes up to cast all the contempt he possibly can on this bill, the fruits of six weeks incessant labor on this question.

The report was then agreed to 93 to 74 strictly a party vote and the bill was sent to the President for his signature

A motion that Foster, member-elect from Michigan, be sworn in was negatived The Senate concurrent resolution for final adjournment was agreed to, and Messrs. Dawes, Maynard and Ely, were appointed to join the Senate Committee to inform the President that Congress was ready to adjourn

Mr Beck of Ky, offered a joint resolution asserting the power of the House to make or withhold appropriations to carry out treaties requiring appropriations of money which was agreed to without yeas and nays under a suspension of the rules The rules were suspended 118 to 23 on motion of Mr Butler who then proceeded to address the House in reference to the scene which took place in the Senate between himself and Senator Davis of Ky

After an exciting discussion between Messrs Butler of Mass Farnsworth of Ill, and Beck of Ky the House adjourned, *sine die*, at 2 o clock p m

FROM WASHINGTON

WASHINGTON, April 20

The following is the full text of the sixth section of the KuKlux bill as finally passed and taking the place of the amendment originally offered by Mr Sherman

SEC 6 That any person or persons having knowledge that any of the wrongs conspired to be done and mentioned in the second section of this act, about to be committed and having power to prevent or aid in preventing the same shall neglect or refuse so to do, and such wrongful act shall be committed, such person or persons shall be liable to the person injured or his legal representative for all damages caused by any such wrongful act, which such first named person or persons by reasonable diligence could have prevented, and such damages may be recovered in an action on the case in a proper Circuit Court of the United States, and any number of persons guilty of such wrongful neglect or refusal may be joined as defendants in such action, provided such action shall be commenced within one year after such cause of action shall have occurred and if the death of any person shall be caused by any such wrongful act and neglect, the legal representative of such deceased person shall have such action therefor and may recover, not exceeding five thousand dollars, therein, for the benefit of the widow of such deceased person, if any there be and if there be no widow, for the benefit of the next of kin of such deceased person

The Democrats in Congress have just issued the following address

TO THE PEOPLE OF THE UNITED STATES

Our presence and official duties at Washington have enabled us to become fully acquainted with the actions and designs of those who control the radical party, and we feel called upon to utter a few words of warning against the alarming strides they have made towards centralization of power in the hands of Congress and the Executive. The time and attention of the radical leaders have been almost wholly directed to devising such legislation as will, in their view, best preserve their ascendency, and no wise restraints imposed by the Constitution has checked their reckless and desperate career The President of the United States has been formally announced as a candidate for re-election.—Declarations of his selfish supporters have been echoed by a subsidized press, and the discipline of the party has already made adhesion to his personal fortunes a supreme test of political fealty The partisan legislation to which we refer was decreed and shaped in a recent caucus, where the extremest counsels always dominate, and was adopted by a subservient majority.

If not with the intent certainly with the effect to place in the hands of the President power to command his own renomination and employ the army, navy and militia at his sole discretion as a means of subserving his personal ambition. When the sad experience of the last two years, so disappointing to the hopes and generous confidence of the country considered in connection with the violent utterances and rash purposes of those who control the President's policy, it is not surprising that the gravest apprehensions for the future peace of the nation should be entertained at a time when labor is depressed and every national interest is palsied by oppressive taxation, public offices have been multiplied beyond all precedent, to serve as instruments in the perpetuation of power, partizanship is the only test applied to the distribution of this vast patronage. Honesty, fitness and moral worth are openly discarded in favor of truckling submission and dishonorable compliancy; hence corruption, defalcations ... spread corruption have followed as the natural consequences of this pernicious system. By the official report of the Secretary of the Treasury, it appears that after the deduction of a proper credits, many millions of dollars remain due from ex-Collectors of Internal revenue, and that no proper diligence has ever been used to collect them. Reform in the revenue and fiscal systems, which all experience demonstrates to be necessary to the frugal administration of the Government, as well as a measure of relief to the overburdened people, has been persistently postponed or wilfully neglected. Congress now adjourns without having even attempted to reduce taxation or to repeal the glaring impositions by which industry is crushed and impoverished

FROM HARTFORD

HARTFORD, Ct, April 20.

The body of P. H. Johannes, a German tailor, was found in the river this afternoon He had been on a spree for some days and threatened suicide when last seen alive this forenoon

Two daughters, 10 and 14 years old, of John McNamara of Collinsville, failed to return home Wednesday night after being sent on an errand Thursday morning the river was dragged and their bodies found with that of Michael Glynn a laborer It is supposed that they fell from a foot bridge into the water and that Glynn lost his life in an effort to rescue them The board canvassers meet Friday, to officially canvass the returns of the vote for State officers at the recent election

MARINE DISASTERS The Liverpool ship Bridgewater has arrived at New York, with Capt. Swengenson and five men of the Norwegian bark Bella Doana, from Baltimore for Londonderry The bark sprung aleak in a hurricane, and sunk on the 6th inst. The mate and two sailors were lost, and the survivors were picked up in an open boat on the 6th, The bark Northern Queen, from Newcastle, England, has also arrived with the Capt. and crew of the Nova Scotia schooner Condor, water loged and abandoned.

There is no prospect that anything further will be done at present toward settling the troubles in the Pennsylvania Mining Districts. The men will not submit to local arbitration and there is not much chance that the ... , which is ... before ... and thus the coal trade is at a stand-still indefinitely.

FIRE IN KENDUSKEAG Our correspondent writes that the house barn and out buildings in Kenduskeag, owned and occupied by Mr William Young, were entirely destroyed by fire about 10 o clock Wednesday evening A considerable amount of the household goods furniture and wearing apparel was saved from the house, but a horse three cows, several head of young cattle, twenty sheep ten tons of hay, all the farming tools, several harnesses, &c, &c, were consumed in the barn When first discovered the barn was in flames and as the family had taken no light into the barn for months it is supposed that the fire was the work of an incendiary The loss is estimated at about $4000, insured for $000

NEW BLOCKS We noticed yesterday at the office of G W Orff, architect, the elevations of the new blocks to be built by Geo W Pickering and S & J Adams, on the corner of Main and Middle streets Mr Pickering's lot is on the corner, is 42 feet front and runs back some 50 feet. The Messrs Adams' lot is on Main street, just below and adjoining Mr Pickering's, it is 45 feet 8 inches front, and runs back 80 feet. The blocks will be built together, of Hallowell granite, 3 stories high, with Mansard roofs, and the general design of the fronts will resemble that of Dale's Block Each block will be arranged for one or two stores, as the occupants may elect, on the first floor, and the upper floors will probably be finished for offices, &c., though the Messrs. Adams may possibly make the third and Mansard roof stories of their block into a hall. The designs and specifications for the granite are already in the hands of the workmen The excavations for the foundations are nearly completed, and the work of building will be pushed forward with the greatest dispatch

WASHING MACHINE!

With this Machine the entire washing of a family of eight or ten persons, can be done in twenty five or thirty five minutes or eight or ten shirts washed in from eight to twelve minutes bedding table linen &c, five to seven minutes This machine CAN BE OPERATED WITH EASE BY A CHILD TEN OR TWELVE YEARS OLD

Goods washed by this machine require no rubbing and it is acknowledged by all who have tried it that the goods are whiter and cleaner than when washed by hand.

This machine is light and easily handled the cylinder is so constructed that it is removed by merely lifting from the boiler The boiler can then be used for other purposes

This machine has been thoroughly tested by the best housekeepers, hired girls and washerwomen and they are universally pleased with it, which can not be said of any other machine in the market

We challenge its equal in thoroughness of execution, and know that it will stand the test as a perfect machine We have one in constant operation

HEALTH NOTICE

To the Citizens of Bangor

The State has provided that certain measures shall be pursued in order to insure the health of the inhabitants Among these measures are the removing of filth unclean or noisome substances and all things injurious to health from the premises of citizens Permit me to suggest to you

1st—To examine your cellars particularly the condition in regard to ventilation dampness decaying vegetables, and all filthy substances

2d—See if there is any offensive smell from your sinks or if your drains are clogged or uncovered

3d—Examine your privies and vaults. If they are full running over or filthy or smell badly have them emptied

4th—See if there are decaying substances or filth of any kind about your premises

5th—See if there is any public nuisance in your neighborhood such as open sewers drains, cesspools stagnant water offensive stables hog sties, &c

6th—See if any drain cesspool, privy stable or hog sty is so near to your well as to soak or drain into it By observing and carrying out the above suggestions you will confer a favor on the public and a blessing on yourself

CHILD [illegible] BLUNDERS.—We [illegible] article from the Golden Age

[illegible] handwritings that come to the Golden Age which excite profanity in [illegible] one being Mr Horace Greeley's and the other Mrs Elizabeth Cady Stanton's each of which has all that keeps the [illegible] the most beautifully bad in the world In our issue of April 8th Mrs Stanton [illegible] picturesque account of one of Prof Moses Coit Tyler's addresses at the Michigan University had a paragraph which our printer after three spasms of pain [illegible] follows Down went the quid, up [illegible] chaplain up went the prayer and [illegible] came the over welcome 'Amen' It seems that our compositor notwithstanding all his efforts made his types say 'quid' where they should have said 'gavel,' for no better reason than that both words look exactly alike in Mrs Stanton's penmanship [illegible]

[illegible] between the Chaplain in Congress and Professor Moses Coit Tyler results from a blunder in the last number of the Golden Age, [illegible] must share with me the blame and sorrow

In substituting 'quid' for "gavel" you represent the reverend Chaplain as publicly [illegible] the obnoxious weed from his mouth [illegible] approaching the Throne of Grace [illegible] show a proper respect for Deity as well as [illegible] fellow men but that a quid of [illegible] should ever have found an abiding [illegible] with in the pure lips of that holy man is [illegible] I imagine he would not care to have [illegible]

[illegible] however you do not refer to the [illegible] what in your prophetic vision [illegible] that future golden age when [illegible] members will simultaneously [illegible] their 'quids' in that solemn [illegible] hour and thus present themselves pure and unspotted before the Lord In fact I think [illegible] throwing down of 'quids' [illegible] in harmony with our great idea of self government and [illegible] a much finer moral effect than that [illegible] that belongs to [illegible] passed away [illegible]

The following story is told of one Mr T [illegible] conceited little man who sells goods through the country for a Boston House, and who [illegible] been boasting of his familiarity and [illegible] among the ladies of our city This little dark mustached irresistible was [illegible] in a stage-coach, full of passengers [illegible] exerting to the utmost, his powers [illegible] one of the passengers a [illegible] quick witted girl of eighteen, who had fortunately heard of the little Mr [illegible] vain boasting and overwhelming conceit He told her that he was from Boston, that he saw and knew a great deal of the world through his business of receiving or [illegible] for goods, that he was a favorite with the ladies, &c The young lady finally determined to rid herself of the fellow's unpleasant attentions, and to take him down from his lofty height at the first opportunity On passing a farm house she observed a calf standing in the yard and turning to the sweet little gentleman inquired what it was "Oh," says he "that is a specie of the cow, it is called a calf, Indeed," replied the girl "I thought it was a Boston runner"

THE ENGLISH TELEGRAPH SYSTEM The accounts of the English telegraph system for the year ending 1st April have been made up and the result is a revenue to the government [illegible] half a million pounds sterling During the last half year the rate was slightly above these figures In 1866 the receipts of all the telegraph companies in England were £512,707 and the number of messages somewhat more than six million Messages are now sent over all England at a uniform rate of one shilling for ten words and the result of the reduction has been a large increase in the number which probably exceeds ten millions annually The number or the week ending April 1 would indicate an annual number of more than eleven millions, the increase for that week over the same week last year being nearly fifty thousand The system has been adopted of renting certain wires to newspapers during the night at a fixed rate of £500 a year This has worked exceedingly well, and the newspapers making such an arrangement find it much to their advantage. On one night in September last three Edinburg newspapers, each renting a special wire, received an aggregate of about 26,000 words. These despatches were in addition to the regular reports received from the press association One Glasgow paper received no less than eleven thousand words as special despatches. This was during the war, and the number of words was of course far beyond the usual average; but it was an enormous amount for a Scotch paper nevertheless.

Bishop Kip, in the Overland Monthly for April, in some "Recollections of Timothy Pickering," an eminent statesman of Washington's time, and a member of his Cabinet, relates a remarkable prediction made by him, which has since been fulfilled. Mr. Pickering lived for a time in Pennsylvania, and upon returning to Massachusetts was asked how he liked the former State. "Very much," he said, "so far as soil and climate are concerned. But I was glad to get out of it. A civil war with the South one day is inevitable, and I did not wish to leave my descendants so near the border line."

There are some funny incidents that take place in court, even during some of the most serious and important trials One of these took place during the progress of the celebrated hog case, recently "tried out." In the course of the eloquent and earnest plea of Mr Baker, counsel for the lady who was injured, and when he was describing the ferocious hog as a very large one, with black spots upon him, covered all over with mud, in which he was wallowing, he exclaimed to the jury, "yes, gentlemen, a hog weighing 400 pounds, with ears as big as cabbage leaves!" At this the Judge interrupting, said, "I believe Mr Baker the ears are not in the case" For a moment Mr Baker was taken off his guard, but instantly recovering himself he turned to the Judge and with considerable gravity, exclaimed, "I believe, your honor, the whole hog is in the case!" Mr Baker resuming his argument, attempted an imitation of the grunting of a hog Judge Cutting complimented Mr Baker, remarking that he had done admirably, producing the sounds perfectly It is needless to say that this episode set the whole court in an uproar, and it was the verdict of jury and spectators that the Judge and the honorable member at the bar were about even

WASHINGTON IN BOSTON In 1789 President Washington visited the eastern States He travelled in a post chaise with four horses When he visited Boston from some mismanagement at the line between Boston and Roxbury, Washington was detained there nearly two hours, and exposed to a raw north east wind, by which exposure he was visited by a severe cold Many other persons were exposed and affected in like manner, and the affection became so general as to be called the Washington influenza He came in to Boston on horseback, dressed in his old continental uniform, with his hat off He did not bow to the spectators as he passed, but sat on his horse with a calm dignified air The President remained about a week, and partook of a public dinner with Governor Hancock and attended an Oratorio in Kings Chapel, on which occasion he was dressed in black On his departure for Portsmouth, he showed his regard for punctuality He gave notice that he should depart at eight o'clock in the morning He left the door at the moment The escort not being ready, he went without them, they followed and overtook him on the way

THE NAVY The United States navy now has seven hundred and eighty six commissioned officers of various grades, and five hundred and forty five staff officers, surgeons, paymasters and engineers One hundred and seventy six of the commissioned officers are from the New England States as follows Twenty three from Maine, seventeen from New Hampshire, fifteen from Vermont, eighty two from Massachusetts, sixteen from Rhode Island, and twenty three from Connecticut Of the staff officers one hundred are from New England, distributed as follows Maine, 14, New Hampshire, 13 Vermont, 5, Massachusetts, 49, Rhode Island [illegible], and Connecticut 10

A certain undergraduate at Cambridge was under examination and among the questions contained in one of his papers was the following 'Why will not a pin stand upon its point?' The examinee was not very strong in his subjects, but as there was nothing like putting a good face on the matter, he set to work to answer the question in as formal a way as possible The interesting result stood as follows 1 A pin will not stand on its head much less is it possible that it should stand on its point 2 A point according to Euclid, is that which has no parts and no magnitude A pin cannot stand on that which has no parts, and no magnitude and therefore a pin cannot stand on its point 3 It will if you stick it in

Abner H Wenzell, a Marlboro, Mass, lawyer and trial justice, recently made an extraordinary attempt at suicide He is a cripple and a man of extremely sensitive nature and was so touched and wounded by a false story about himself and one of his clients that he determined to end his sorrows and his life So taking a Smith & Wesson six shooter he fired six shots in the direction of his heart and then deliberately reloaded the weapon and fired another shot just under the ribs on the left side Finding all these ineffectual, he next fired into his right ear, then behind the ear, and last just over the ear At this point he became insensible, and fell to the ground where he was found by his family Medical aid was summoned but nothing was done for him as it was supposed that nothing would save him, until he avowed his determination to live after all He seemed better temporarily, but is now failing.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors

TESTIMONIALS

I regard Mr. Eddy as one of the most *capable and successful* practioners with whom I have had official intercourse

CHARLES MASON, Commissioner of Patents."

I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. EDDY has made for me THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

THE HOUSE has been erected the present season on the corner of Park and Main St Rockland and is now open for the public patronage

Clean beds, pleasant rooms good fire and careful attendance will be offered to the guests of this house, and no pains will be spared to make their stay agreeable, Nearly every room looks out upon the bay, and every room in the house is pleasant thus affording to persons desirous of enjoying the sea breeze and spending the summer months, an opportunity to do so, without locating on an island where they can enjoy the sea air and nothing else

Have taken especial pains to prepare convenient sample rooms

Carriages to take passengers to and from the house free of charge

Good Livery Stable connected with the house and good stable for transient horses

A New, Wonderful and Useful Invention,

CALLED A

Tidal Power,

Has been discovered at the expense of many years study and experiment which will revolutionize the method of obtaining power for driving machinery of all kinds

Although this power is obtained from the rise and fall of the tides machinery can be driven at a long distance from the seat of power with this invention, by means of a wire rope which is now in common use for similar purposes

This Machinery is so simple and occupies so little room that it can be erected on any wharf, and the expense of the Machinery very trifling compared to other power

It will run for years without any expense and without any person to tend it, the power being continuously obtained night and day if desired, a common scow being sufficient to drive light machinery

This power can easily and effectually be applied to ring Fog Bells saving the Government thousands of dollars yearly, needing no attention after being once set in motion

The principle by which a continuous motion of the Main Shaft is insured in a given direction, can also be applied to Sewing Machines and prevent the possibility of the machine changing to the troublesome backward motion which breaks the thread, by using this process on Sewing Machines both hands of the operator are entirely at liberty to hold the work Children can run them without trouble

In manufacturing Sewing Machines for the future the Balance Wheels can be entirely dispensed with, consequently making a great saving in the manufacturing This principle can be applied to every machine at a trifling cost

The application of this principle can also be made to foot Lathes, the motion of the foot being hardly perceptible and more speed attained than with the crank It also saves the motion of the body when propelling the machine, and favors the ankle.

The "Close Treadle" for Sewing machines, constructed to embody the above named principle and capable of being applied to sewing Machines of any size, kind, or shape, are now being manufactured, and in a few days may be seen, at the clothing store of E C Smart on Exchange Street, in operation attached to a sewing machine from the manufactory of B P Howe, successor to the late A B Howe, the originator of the 'Improved Howe Sewing Machine'

A license to manufacture and sell ten thousand of the 'Close Treadle' having been granted to A. E. Kimball, agent for the "Improved Howe Sewing Machine," he will immediately introduce them to this market through his agents, who will apply them to machines of any manufacture at prices so low that every person owning a Sewing Machine will be sure to have one.

It is a useful and valuable invention, and is worthy of the investigation of all scientific men.

Letters Patent were issued for this Invention, dated December 27th, 1870, obtained through the agency of Fred H. Coombs of this City

Timber Land

For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County New York

Said timber consisting of White Hemlock Spruce, Pine and Hardwood The subscribers own two large tanneries located on the aforesaid tract which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate The timber is excellent in quality in all particulars The aforesaid tract of land is easy of access being only from six to fifteen miles from both the Black River R R and Black River Canal, which lead direct to the Albany Market The land is comparatively level, well watered and good for farming purposes Moose River which extends through the tract, is a large stream and empties into Black River At this point or junction of the rivers, is a fall of sixty (60) feet, over which the waters of both rivers flow thus forming an unlimited water power (we might say right in the Canal and at the Depot) to which Moose River will carry the immense amount of timber from the aforesaid lands

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention The land and timber can be purchased at a cheap rate or the timber alone permitted

THE DIAMOND GLASSES,

Manufactured by J. E SPENCER & CO, New York which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the MOST PERFECT, Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond" on account of their hardness and brilliancy

The Scientific Principle on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner, in frames of the best quality, of all materials used for that purpose. Their finish and durability cannot be surpassed.

CAUTION.—None genuine unless bearing their trade mark stamped on every frame.
